

Standard 14-gallon green recycling buckets available for purchase at the Village Hall. The cost is \$10.

A **new option** for residents is the **65-gallon recycling containers** now available for purchase. The containers are blue upright containers on wheels with an attached lid that roll easily, even with heavy loads. They are designed to be lifted and emptied by a mechanism on the recycling truck, thereby allowing resident to put out several weeks of recycling at a time. These containers are **only** for glass, cans, bottles and plastics (no papers please).

The cost is \$65.00, and once payment is made at the Village Hall, your recycling container will be delivered to your home by our DPW. The containers are a neater, easier solution to recycling, especially for large families.
